A WORD FROM OUR CHAIRMAN

Welcome TO THE PEOPLE'S RACE

Dear Friends,

Welcome to Circuit of The Americas and the 2026 FORMULA 1 MSC CRUISES UNITED STATES GRAND PRIX. Since we opened our doors in 2012, COTA has been the home of Formula 1 in America, and this October we host the UNITED STATES GRAND PRIX for the 14th time. We are proud to be known as “The People’s Race,” with more than 400,000 fans expected to attend this weekend.

Each year, we try to add new elements to this festive weekend, but this year will be the most transformative since our first. You can’t help but notice the new clubhouse and Paddock Club building overlooking our iconic Turn 1. Fans can see 18 of our 20 turns from its uppermost level, and we believe it is truly the greatest vantage point in the world to watch an F1 race. Stretching from Turn 19 and wrapping around Turn 20 is our new COTALAND amusement park. While we previewed one coaster last year, we have now completed the park, which features 32 rides and attractions. The park’s main restaurant has an awesome view of the front straight, and its strategic placement gives us a year-round opportunity to engage with – and excite – potential new fans.

I encourage you to wander our campus. While the track itself is acclaimed by the drivers, the fan zones are equally appreciated by our guests. We have themed villages, great food, miles of activations and displays, and this year we are presenting our newest addition: the world’s largest cowboy hat! If you’ve never enjoyed a concert in our amphitheater or at our 100,000-person Super Stage, then you have missed part of what makes the USGP special. The off-track entertainment is included with every ticket, making the FORMULA 1 UNITED STATES GRAND PRIX the best

value in all of sports. For one price, you get 40 hours of entertainment and fun.

One other noteworthy change this year will take place on Thursday, as we present Grand Prix View Thursday. For the first time, we will open our gates on Thursday and welcome thousands of local schoolchildren. These kids will get a chance to see on-track action and get up close to the cars and garages of F1 Academy. They’ll hear from some inspirational and leading voices from the paddock, and for many it will be their first trip to a racetrack. While our focus is on putting on a great event for today’s fans, we do so without losing sight of the need to nurture the future of our sport.

None of our good work reaches fans around the world without you. Thank you for the stories, photographs and broadcasts that bring the UNITED STATES GRAND PRIX to life. Our Media Center team is here to make your week as smooth as possible, and we hope you know how much you mean to us.

Welcome to Austin, and enjoy the event!

Sincerely,

Bobby Epstein

ECONOMIC IMPACT TO CENTRAL TEXAS

Circuit of The Americas is THE premier destination for world-class motorsports and entertainment in the United States.

Set on 1,500 acres in the rolling hills just outside downtown Austin, Circuit of The Americas has hosted the biggest names in racing, sports, music and even movies and television since 2012. At its heart is a 3.41-mile racetrack that was designed to challenge the world's most exacting competitors while providing a thrilling spectacle for audiences. The facility is truly a multi-purpose venue for unparalleled experiences.

The 20-turn, counter-clockwise circuit takes advantage of the naturally undulating landscape, including an intimidating 133-foot hill at Turn 1. Circuit of The Americas is the home of the FORMULA 1 UNITED STATES GRAND PRIX, and has been for over a decade now, and is home to the only MotoGP race in the country – the Red Bull Grand Prix of the Americas. In addition, The Circuit currently hosts NASCAR, and the FIA World Endurance Championship, and has previously hosted ESPN's X Games, INDYCAR, IMSA WeatherTech SportsCar Championship, Pirelli World Challenge and more.

Nestled within the track is the Germania Insurance Amphitheater, one of the largest outdoor amphitheaters in Central Texas with a seating capacity of 13,000 people. This unique treasure in the Live Music Capital of the World has hosted some of the biggest names in music and entertainment, including Texas icon Willie Nelson, Jimmy Buffett, KISS, Nine Inch Nails, Kanye West, Kenny Chesney,

Drake, Maroon 5, Muse, One Republic, Kelly Clarkson, Odesza and more. When The Circuit needs to make room for a festival-like music experience, the Super Stage takes performances to a new level. The Super Stage has a capacity of 100,000 and has provided dancing room for fans to enjoy superstars such as Taylor Swift, Billy Joel, Metallica, Bruno Mars, Elton John, P!NK, Justin Timberlake, Garth Brooks and many more. The Circuit also boasts the iconic 251-foot observation tower at the center of the track, the T11 Car Community, a one-mile high-speed karting track, a mini-golf course, a 12-story starting grid view zip line ride and provides an on-site premium RV park with 78 spaces and year-round operations.

Today, Circuit of The Americas has generated more than \$8 billion of economic impact to Central Texas through increased tourism and annual operations. The Circuit also continues to be a leader in environmental awareness and sustainability and has helped make advances in educational and scientific fields, including solar car technology, as well as racing and consumer automotive technology. Beyond these methods of giving, Circuit of The Americas contributes to its community through donations, monetary and in-kind, and volunteerism.

With plans for more world championship racing, new amenities, features and new events, Circuit of The Americas continues to set the stage for excitement for many years to come. For an experience as unique as Austin and a rush you'll never forget, come to Circuit of The Americas – where exhilaration happens.

2027

FORMAL OPENING

THE CIRCUIT is Circuit of The Americas' new private members club – a four-story clubhouse rising above the top of the iconic Turn 1 hill, with what COTA calls “the best view in motorsport.”

Opening in 2027, it will give members and their families year-round access to the 3.41-mile circuit that hosts Formula 1, MotoGP, the FIA World Endurance Championship and NASCAR, with more than 250 dedicated track days a year, curated driving experiences and bespoke hospitality. Connected to the pit building by aerial gondola, the clubhouse will feature a sky deck with two pools, a fitness center, race and golf simulators, executive

conference rooms and elevated dining, along with member access to the amphitheater members' box and fast-track passes for COTALAND. From 2027, the track will be reserved for members, race weekends and special events.

“These stunning renderings accurately depict the final product, but they can't capture the spectacular vista that can only be experienced from standing on the site.”

COTALAND, the family-friendly amusement park located inside Circuit of The Americas, is now open.

Located trackside between Turns 19 and 20, the park features 32 rides and attractions – from record-setting roller coasters and rides to immersive entertainment and family attractions – and transforms COTA from a globally recognized motorsports destination into a year-round entertainment hub for families, thrill-seekers, tourists and locals alike.

"COTALAND was created to be far more than a traditional amusement park. This is where theme park thrills, world-class racing, live entertainment and family experiences come together in a way that doesn't exist anywhere else in the country."

BOBBY EPSTEIN, FOUNDER OF COTA

SIGNATURE ATTRACTIONS

- **Hot Lap Experience.** The only permanent attraction in the U.S. where guests can ride along on an active Formula 1 track – the same circuit used by Formula 1, MotoGP, NASCAR and the FIA World Endurance Championship. Available as a \$175 add-on to park admission.
- **Circuit Breaker.** Texas' first tilt roller coaster and only the second of its kind in the United States.
- **Palindrome.** A one-of-a-kind shuttle coaster that travels both forward and backward along the same track while soaring over an active roadway.
- **Family attractions.** A near-even balance of family and thrill rides, including Safari Adventure, Soggy Logger and Medusa, plus Speed City experiences: Kiddie Karting, COTA Karting, Mini Golf and the Soaring Eagle Zipline.

COTA-F1 AGREEMENT RUNS THROUGH

The 2026 FORMULA 1 MSC CRUISES UNITED STATES GRAND PRIX, October 22-25, is the 14th UNITED STATES GRAND PRIX held at Circuit of The Americas.

Since hosting its first race in 2012, COTA has staged the event every year except 2020, when it was cancelled due to the COVID-19 pandemic. It is also the first USGP under COTA's extended agreement with Formula 1, announced during the 2025 race, which keeps the UNITED STATES GRAND PRIX in Austin through 2034.

WHAT'S UNIQUE IN 2026

- **A new era of Formula 1.** The first USGP under the all-new 2026 regulations: smaller, lighter cars, new power units with a near 50/50 split of combustion and electric power, Advanced Sustainable Fuels, and Overtake Mode and active aerodynamics in place of DRS.
- **The biggest grid in a decade.** Eleven teams and 22 cars – the largest field since 2016 – including Cadillac, the first new American team since Haas, making its COTA debut with Sergio Pérez and Valtteri Bottas, the 2019 USGP winner.
- **Three races in America.** Austin is the second of three U.S. rounds in 2026, between Miami (May) and Las Vegas (November).
- **"The Andretti."** The first USGP since Turn 20 was dedicated to American racing legend Mario Andretti during the 2025 race weekend.
- **Racing all weekend.** F1 Academy, Masters Historic Racing and Porsche Carrera Cup North America complete the support program.
- **Live music all weekend.** Maroon 5 (Friday) and Post Malone (Saturday) headline the Super Stage, with Alesso closing the weekend at the Germania Insurance Amphitheater after the race on Sunday.

NEW ON THE COTA CAMPUS

- **THE CIRCUIT – Private Members Club.** COTA's official private members club, opening in 2027, will sit four stories above the iconic Turn 1 with year-round track access, curated driving experiences, a clubhouse with sky-deck pools, a fitness center, race and golf simulators, dining and bespoke hospitality, including USGP access.
- **COTALAND Theme Park.** COTA's new family-friendly amusement park is now open trackside between Turns 19 and 20, with 32 rides and attractions including the Circuit Breaker and Palindrome coasters and the Hot Lap ride-along on the Formula 1 circuit. Open exclusively to Formula 1 ticket holders during Grand Prix weekend.
- **T11 Car Community.** A private automotive community at Turn 11 with trackside car condos and garages, and owner privileges including access to motorsport events, hospitality, COTALAND and COTA Karting.

GRAND PRIX WINS IN 2026

Kimi Antonelli arrives at COTA with his first Formula 1 World Championship within reach.

After 17 rounds, Mercedes' Kimi Antonelli leads the 2026 Drivers' Championship on 340 points, 102 clear of team-mate George Russell (238). With all six of this season's Sprints now complete, only five Grands Prix remain after Austin – Mexico City, São Paulo, Las Vegas, Qatar and Abu Dhabi – worth a maximum of 125 points. If Antonelli leaves COTA with a lead of 125 points or more, the title is his.

HOW HE CAN CLINCH IT ON SUNDAY

- **Antonelli wins the UNITED STATES GRAND PRIX.** He needs to outscore Russell by 23 points – only a victory can deliver

that.

- **George Russell finishes ninth or lower.** Russell must score 2 points or fewer.
- **Lewis Hamilton finishes fifth or lower.** Hamilton (229, 111 behind) must score 10 points or fewer.
- **Everyone else is covered by an Antonelli win.** Max Verstappen (221), Charles Leclerc (215) and Lando Norris (201) cannot stay in contention if Antonelli takes the 25 points.

If Antonelli's lead over Russell is exactly 125, he would still be champion on countback: a ninth win of the season would give him more victories than Russell (currently three) could reach. Any other result in Austin keeps the fight alive into the Mexico City Grand Prix on November 1. The UNITED STATES GRAND PRIX has no Sprint in 2026.

WHAT'S AT STAKE

Kimi Antonelli, Mercedes-AMG PETRONAS Formula One Team

- **Potentially the youngest World Champion in F1 history.** If crowned this weekend, at 20 years and 61 days Antonelli would beat Sebastian Vettel's record (23 years, 134 days in 2010) by more than three years.
- **Italy's first World Champion since 1953,** ending a drought that stretches back to Alberto Ascari's back-to-back titles.
- **Austin has crowned a champion before.** Lewis Hamilton sealed his 2015 title at COTA on October 25, 2015 – eleven years to the day before this year's race.

WHO IS KIMI ANTONELLI?

Born in Bologna, Italy, on August 25, 2006, Andrea Kimi Antonelli grew up in racing – his father Marco is a sportscar driver and runs the AKM Motorsport team. A back-to-back European karting champion in the OK class (2020–21), he won the Italian and German (ADAC) F4 titles in 2022 and both the Formula Regional Middle East and European titles in 2023, before jumping straight to Formula 2 with Prema in 2024, where he won twice.

Mercedes promoted him to Formula 1 for 2025 as Lewis Hamilton's successor. He finished fourth on debut in Melbourne aged 18, scored his first podium in Canada and became F1's youngest driver to set a fastest lap and to lead a lap. In 2026 he has become the sport's breakout star: a first pole and first win in China – making him the youngest pole-sitter in F1 history and the first Italian to win a Grand Prix in two decades – followed by five consecutive victories from his maiden win, a Formula 1 record.

Live 2026 CONCERT HEADLINERS

THREE NIGHTS, THREE HEADLINERS – ALL OPEN TO PADDOCK AND MEDIA CREDENTIAL HOLDERS VIA
GENERAL ADMISSION

MAROON 5

Friday, October 23 • 8:30 PM • Super Stage

Fronted by Adam Levine, Los Angeles pop-rock band Maroon 5 have been one of the 21st century's biggest acts since breaking through with their 2002 debut Songs About Jane. Three-time GRAMMY winners with more than 100 million albums sold, the band hold the record for the most Billboard Hot 100 No. 1s this century by a duo or group, with hits including "This Love", "She Will Be Loved", "Moves Like Jagger", "Sugar", "Girls Like You" and "Memories". They headlined the Super Bowl LIII halftime show in 2019 and released their eighth studio album, Love Is Like, in 2025.

POST MALONE

Saturday, October 24 • 8:30 PM • Super Stage

Singer, songwriter, rapper and Texas-raised genre-crosser Post Malone is one of the best-selling American artists of the past decade, behind diamond-certified hits such as "Congratulations", "rockstar", "Circles" and "Sunflower". In 2024 he turned to country with F-1 Trillion and the chart-topping Morgan Wallen duet "I Had Some Help", and in 2026 announced The Eternal Buzz, a 40-track double album. No stranger to the F1 calendar, he has previously headlined at the Singapore and Abu Dhabi Grands Prix.

ALESSO

Sunday, October 25 • 5:30 PM (post-race) • Germania Insurance Amphitheater

Stockholm-born DJ and producer Alesso is one of electronic music's most recognisable names, known for festival anthems including "Heroes (We Could Be)" with Tove Lo, "Calling (Lose My Mind)", "Under Control" with Calvin Harris and Hurts, and "Words" featuring Zara Larsson. A regular headliner at the world's biggest dance festivals, he has also collaborated with Katy Perry and OneRepublic – and closes the 2026 UNITED STATES GRAND PRIX with a post-race set at the Germania Insurance Amphitheater.

2026 REGULATION CHANGES

THE BIGGEST TECHNICAL OVERHAUL IN YEARS

2026 brings all-new power unit and aerodynamic regulations. Key changes at a glance:

01 SMALLER CARS 200mm SHORTER WHEELBASE

The wheelbase is 200mm shorter (3,400mm, down from 3,600mm) and the floor is 100mm narrower. Front tyres are 25mm narrower and rears 30mm narrower – giving more room to race wheel-to-wheel, but with a smaller tyre contact patch.

02 LIGHTER CARS 768kg MINIMUM WEIGHT

The minimum weight drops from 800kg to 768kg, helped by the removal of the MGU-H and the smaller car and tyre dimensions.

03 NEW AERODYNAMICS

Ground-effect Venturi tunnels are gone. Front and rear wings are simplified, wheel covers are removed and new bargeboards direct turbulent air inboard, reducing “outwash” so cars can follow each other more closely.

04 NEW POWER UNITS 50/50 COMBUSTION / ELECTRIC

The V6 turbo hybrid loses the MGU-H. Combustion-engine output falls to around 400kW while the MGU-K rises from 120kW to 350kW – a roughly 50/50 split between combustion and electrical power. Energy recovery per lap more than doubles from the previous 4MJ, harvested under braking, on part-throttle and through “super clipping”.

05 ADVANCED SUSTAINABLE FUELS 100% SUSTAINABLE FUEL

Cars run for the first time on drop-in Advanced Sustainable Fuels made from second-generation feedstocks (such as industrial residues or organic waste), with the FIA measuring the CO₂ equivalent at every step.

06 OVERTAKE MODE (REPLACES DRS) +0.5MJ WITHIN ONE SECOND

A driver within one second of the car ahead at the single detection point per lap gets an extra 0.5MJ of energy and an additional electrical power profile on the following lap, to sustain higher speed for longer – most effective on long straights.

07 STRAIGHT MODE (ACTIVE AERO)

In designated zones on every lap (in dry conditions), both the rear-wing top element and the upper front-wing elements move to cut drag on the straights, then return to high-downforce configuration for the corners.

Often found on lists of the world's best cities, Melbourne is a blast all year round – and it only gets better when Formula 1 rolls into town. There are bars and restaurants aplenty, you're right by the beach, while the race's appearance at the start of Australia's autumn means the temperatures should be peachy.

The circuit's pleasing form when seen from the air – it's designed to look like the Chinese symbol for 'shang', meaning upwards – is equally pleasing to the drivers on terra firma. There's a unique start to the lap as the drivers fly into the ever-tightening Turns 1 and 2, before they dart left through 3 and 4. The super-high g force Turns 7 and 8 are loved by the drivers, while the circuit also features one of the longest straights on the calendar, the 1.2km stretch that separate Turns 13-14.

The Hard Rock Stadium knows how to put on a show – it has hosted six Super Bowls, two Baseball World Series and numerous rock concerts. Put it at the heart of a track designed to encourage close racing while meeting the highest safety standards and you have a sure-fire winner for spectators. Then there's Miami itself – famed for its sandy beaches, art deco vibe, vibrant multiculturalism, and rich sporting heritage, it's an essential destination for those visiting the Sunshine State.

The Montrealers really embrace their Grand Prix weekend, with the charming city turning into an F1-loving party town in the week leading up to the race. For the Grand Prix itself, the leafy setting makes the Circuit Gilles-Villeneuve one of Formula 1's most laidback venues.

It was 1929 when racing engines first reverberated around the Principality, after cigarette manufacturer Antony Noghes decided to organize a race with his pals from the Automobile Club de Monaco. The race was part of the calendar in the first year of the Formula 1 World Championship in 1950 and hasn't been off it since 1955.

The drivers love the Circuit de Barcelona-Catalunya, which is just as well, because they spend huge amounts of time pounding around it during winter testing. The track is a good mix of high- and low-speed corners, with the challenging Turn 3 right-hander a great chance to evaluate the balance of the car your team's designers have given you to fight with for the season. You don't need us to tell you that Barcelona is one of the world's great cities, even if we just sort of did. Food, culture, beaches – it's all there, making a Spanish Grand Prix holiday a properly attractive proposition..

Race tracks don't come much more picturesque than the Red Bull Ring, set in an idyllic natural bowl in the Styrian mountains. That makes for a pleasant environment for a Grand Prix, while if you're after tourist attractions to visit after the race, look no further than the museum in Graz dedicated to the city's favorite son: Arnold Schwarzenegger.

It's hard to stop the goose bumps from prickling as you walk around one of the great cathedrals of motorsport, while in terms of atmosphere, the British fans are always reliably raucous – this is the country that invented football (that's soccer, mind), after all.

Spa is among Formula 1 drivers' most loved tracks, with its mix of long straights and challenging fast corners allowing them to push their cars to the edge of their capabilities – if it's dry, that is. The size of the track and the nature of Belgian weather means it can sometimes be raining on one part of the track and dry on another, meaning grip can vary from one corner to the next. Keep an eye on the thrilling Eau Rouge, arguably the most famous sequence of corners in the world, as the drivers flick left, right, and then up the hill through Raidillon.

Work began on the Hungaroring in 1985, and the track was race-ready just nine months later. The Hungarian government had originally considered reviving the old Nepliget park circuit in Budapest in a bid to host Formula 1 in the country, but in the end decided to create a purpose-built facility instead.

'Really quick,' 'pretty insane,' 'crazy' and 'old-school' were words used by the current crop of F1 drivers when asked to describe the Zandvoort track that many of them tackled in their junior category days. We'd also add 'undulating' to that list. The Zandvoort track swoops and flows through the sand dunes, creating a rollercoaster-like feel to the lap. And while the circuit was modernised in time for F1's most recent return – including increasing the banking angle at the famous Tarzan corner to an Indianapolis Motor Speedway-trumping 18 degrees – Zandvoort remains a proper, challenging drivers' track.

Rapido! Formula 1's fastest ever lap was set at Monza – Williams driver Juan Pablo Montoya's 260.6km/h effort during practice for the 2004 Grand Prix – which should give you some idea of the nature of the track the locals call 'La Pista Magica'. Cars are on full throttle for 80% of the lap and hit their Vmax on the circuit's 1.1km start/finish straight. From there, they roar off into the historic park section, where a series of big stops into tight chicanes give the brakes a good workout.

A spectacular new addition to the Formula 1 calendar, Madrid's MADRING combines permanent racing facilities with sections of public roads around the IFEMA exhibition centre to deliver a unique hybrid circuit. The FIA Grade 1 layout features 22 corners (10 left, 12 right), dramatic elevation changes and multiple high-speed straights where cars exceed 340 km/h. Its signature feature is La Monumental at Turn 12 – the longest banked corner on the Formula 1 World Championship calendar.

As with all city tracks, spectating at the Azerbaijan Grand Prix means that you're right in the middle of the action when the cars get put back in their boxes. Baku itself is a buzzing city, while food is a key part of Azerbaijan's culture, incorporating elements of Turkish and Middle Eastern cuisine – so eat up!

Called off in April, the Bahrain Grand Prix was relocated to Malaysia's Sepang International Circuit for October 2-4, 2026 – Formula 1's first visit to Sepang since 2017. Designed by Hermann Tilke and opened in 1999, the 5.543 km layout combines two long straights joined by a tight hairpin with fast, sweeping corners, all in the heat, humidity and tropical rain of Kuala Lumpur. The 2026 race was rain-delayed and won by Max Verstappen, his first victory of the season.

The Marina Bay Street Circuit is one of the most physically demanding on the calendar, its bumpy street surface coupled with heat and humidity giving the drivers plenty to think about. Racing under the lights around the 4.927 km lap, the drivers are working the wheel constantly – the physical stress causing them to lose as much as 3kg over the course of a race.

There's a reason Austin is often regarded as America's coolest city, with great food and a vibrant nightlife, all united under the banner of the city's unofficial slogan: 'Keep Austin Weird'. Then when racing starts, you'll be in

attendance at one of the great modern racetracks. The uphill run into wide, wide Turn 1 – hey, everything's bigger in Texas, right? – has provided some fine overtaking action in the track's short life.

Lap record: **1:36.169** – Charles Leclerc (2019) · First Grand Prix: **2012** · 20 turns, counter-clockwise · 133-foot climb to Turn 1

The Autodromo Hermanos Rodriguez sits over 2km above sea level, making the 4.3km lap a breathless experience. The track still largely follows the outline of the original 1959 circuit, the main difference being that the

spectacular – and spectacularly scary – Peralta corner is now bisected, with the circuit instead winding through the old Foro Sol baseball stadium, providing one F1's most unique vistas.

Like many pre-World War II tracks, Interlagos features banked corners, with the drivers beginning their lap on a sort of half oval – in fact, between 1957 and the track's return to the F1 calendar in 1990, Interlagos could be run as a giant oval. After wiggling through the Senna S and

down to Turn 4, the drivers then go through a snaking in-field section with some challenging camber changes, before slinging back up the hill and through the banked final turn.

Designed primarily with motorcycle racing in mind, the 5.4-kilometre Lusail International Circuit is a fast and flowing track, where medium- and high-speed corners

predominate. Over one kilometer of the track's total length is made up of the main straight, which provides plenty of overtaking opportunities into Turn 1.

Yas Island was a blank canvas for developers to turn into a tourist attraction, and 11 years and \$40 billion later, they've nearly finished doing just that. Seven hotels, Ferrari's indoor theme park, a mall, a water park, a golf

course, a beach, a concert arena and a nightclub, all framed by perfect Emirati weather. What more could you want?
